As always, it's first-come, first-served! So be sure to register right away! ;)

In March, there are exciting events coming up for you. Which ones will you be joining?

Sign up as the semester representative!

We are looking for volunteers from every semester who would like to take on this role in FS25. Our instructors are always happy to receive feedback from us students. That's why the position of semester representative(s) exists. In this role, you will (individually or in pairs) be responsible for one subject, for which you will create a survey, have it completed, and then discuss the results with the respective instructor.

If you are interested, please contact us (mail to dienstleistungen@aiv.ethz.ch) or you will have the opportunity to sign up for a list in the coming weeks.

In the end, you will receive a gift as a token of our appreciation for your efforts. 😊

Glühwein + Masterparty 1 - Masterreise

LOCHNESS, HOENGGERBERG

Get ready for the first Masterparty of the semester next week on Thursday, the 27th. We're kicking things off early at 5 PM with some Glühwein to warm you up in front of the main HIL entrance. Then, the party moves to HXE Lochness at 7 PM - don't miss out! During the Masterparty, the Mastergrill will have a barbecue in front of the HXE and provide you with delicious food.

When: Thursday, 27.02.25 from 19:00 o'clock
Where: HXE Lochness
Registration: none
Costs: none

Curling - AIV

This year, the AIV is going curling again. It's the perfect kick-off for our event season in the spring semester of 2025. There will be a brief introduction on-site before the fun begins. If you've always wanted to try your hand at placing the stones correctly, sign up quickly as spots are limited.

Where: Dolder Ice Rink, Adlisbergstrasse 36, 8044 Zürich Dolder

When: Monday, March 3, 2025, 17:45 – 20:00

Meeting point 17:45 in front of the entrance to the icefield

Costs: 5.- CHF

Registration: [Registration Curling](#) (Limited to 20 people)

Tips for your curling experience:

To ensure your curling session is a top experience, please note the following points:

- Wear comfortable, warm clothing with enough freedom of movement (avoid tight pants), and thin gloves may be useful.
- For your safety, you can bring your own helmet or borrow one on-site.
- You'll learn everything else from the instructors when you arrive.

Construction site tour of the rain relief system on Höngg – Stadt Zürich

As part of this year's Engineers' Day, the Civil Engineering Office is offering a public construction site tour on March 4, 2025, showcasing the construction of a new rain relief system in Höngg to protect the Limmat.

When: Tuesday, 04.03.2025, 12:15 until 13:15 or 17:00 until 18:00 o'clock

Meeting point Baucontainer Winzerhalde 34, 8049 Zürich

On the registration website, you'll also find additional information about the construction site tour.

Scimpact

Reatch runs the Scimpact funding program every year for students who wish to contribute their scientific knowledge to societal and political debates. The program lasts for 6 or 12 months and consists of workshops, one-on-one coaching, and community events. During the program, the participants organize events on scientific and political topics.

When: Start at 29. March 2025

Costs: none

Registration: [Scimpact](#)

until 09. März 2025

On the registration website, you'll also find additional information.

AIV Vollversammlung

Do you want to know what's happening at the AIV? Do you want to have a say in what happens with your VSETH contribution? Then seize the opportunity and drop by our VV! All attendees will enjoy delicious food from the Mastergrill during the VV, and we'll quench your thirst with beer and non-alcoholic beverages. And of course, it's all FREE – so it's definitely worth coming!

When: Tuesday, 11. March 2025

Time: It will be announced later

Construction site tour Lengg - AIV

Construction is underway on the Wässerig parcel right on Lake Zurich. In an underground, five-story central facility, the heart of the Lengg Energy Network is taking shape. Following the specialized deep foundation work (approximately 100 bored piles with a diameter of 1.50 m and a length of up to 26 m), flushing drilling operations are currently in progress and will continue into next spring, establishing the connection between the lake and the Lengg district.

Using a trenchless method, a distance of nearly 600 m and an elevation difference of over 60 m will be spanned. Starting in January 2025, excavation of the construction pit—a circular cylinder with a diameter of 17 m and a depth of over 20 m—will commence, and it is expected to be completed by the end of March.

According to the current schedule, at the time of the site visit ...

- ... the earthworks/excavation will have been completed,
- ... the widening of the pilot bore will be underway, and
- ... the shell construction works will be prepared.

General outline:

- 4:00 PM: Arrival of the participants
- 4.10 PM: Brief presentation of the EV Lengg project, followed by division into 2 to 3 groups.
- 4:30 PM Construction site tour
- 5:30 PM Apéro

Equipment:

- Hiking shoes
- Vest
- Helmet

Important: The vests and helmets are provided at the construction site. Everyone is responsible for appropriate footwear.

Date: 18.03.2025.

Organizer: Locher Ingenieure AG

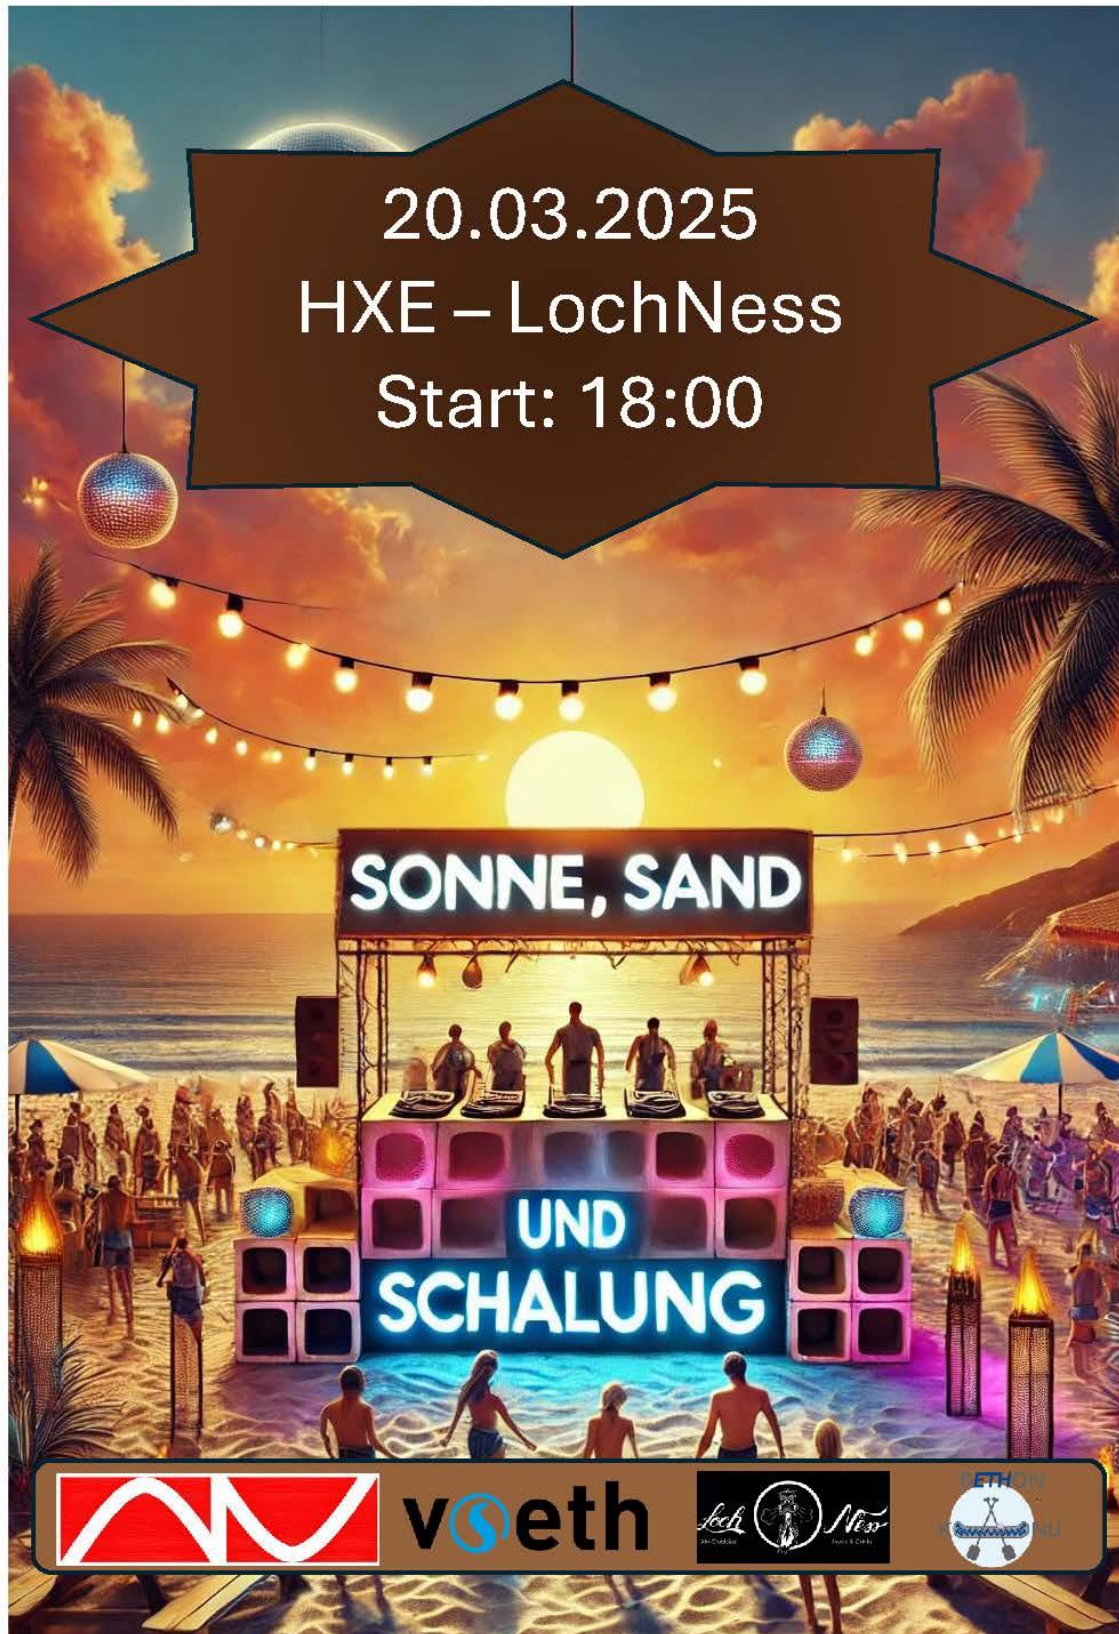

Meeting point: Seestrasse 6, Zollikon (Travel from Höngg via public transportation)

costs: none
