Volleyball & Football Tournament – AIV x GESO

Up for some sports and fun? Then our mixed tournament is just the thing for you! In this unique format, teams of 4 to 6 players will compete in both football and volleyball. Sometimes you'll want to hit the net – and other times, avoid it at all costs! Whether you're a passionate amateur or a casual player – the focus here is all about having fun.

Sign up now and show us what you've got on the pitch and in the sand! Only one registration per team is needed.

Beer Rally – AIV x GESO

Teams of 3 will tackle a route with various checkpoints, all while finishing a crate of 24 beers together. It's not just about drinking skills – your coordination and creativity will also be put to the test with fun challenges at each station. The winning team is the one that finishes fastest and scores the most points. More info will be sent via email after registration.

We're also looking for helpers! Each checkpoint needs 2–3 people. Sign up solo or with friends – we'd love to have you! Drinks, beer, and snacks will be provided in the evening as a thank-you.

Where: HXE, later Käferberg

When: Thursday, 15.5.2025, 18:00 - ca. 21:00

Cost: 10 CHF per Team

Lunchkolloquium Mauchle Stahlbau with Aperitif- AIV

Pichler Projects from Bolzano is a powerful and experienced steel and facade construction company.

As a subsidiary of Pichler Projects, Mauchle Stahlbau AG brings 60 years of expertise, offering comprehensive steel construction services, from consulting and planning to design and manufacturing, all carried out in its own office buildings and production halls in Sursee.

They combine Swiss quality standards with a strong sense for the functional and aesthetic requirements of steel construction. This results in steel structures that truly deliver what they promise. Their clients include businesses, public authorities and private investors.

Typical Mauchle: Strong when things get tricky.

Steel construction has a long-standing tradition in modern architecture. The advantages are clear: fast construction through prefabrication, the possibility of large spans and the durability of the material. They plan, design and assemble load-bearing structures with creativity and cutting-edge production technologies.

Agenda:

- Company Introduction
- Ecology in Steel Construction
- Project Presentation
- Hands-On

Where: HIL E6

When: Monday, May 19th, 2025, at 12:00 PM

Dozierendenapéro – AIV x GESO

As every semester, this fall term will again feature the traditional Dozierendenapéro organized by AIV & GESO for the entire D-BAUG community. It will take place on Wednesday, May 21, 2025, in the small testing hall (kleine Versuchshalle), starting around 5:45 PM, right after the departmental conference. We warmly invite you to join us in toasting the approaching end of the semester and taking the opportunity to connect with professors, lecturers, and staff members of D-BAUG in a relaxed setting. It's a great chance to meet outside the usual student-teacher roles!

And of course, there will once again be a delicious apéro buffet. We look forward to seeing many of you there!

Where: kleine Versuchshalle

When: 17:45

Cost: free

Registration: not necessary

Construction site visit HPQ - AIV

Seen the HPQ construction pit from the drawing studios one too many times? Now is your chance to not just look at it – but actually step into it!

The construction site tour with Marti starts with a short introduction to the excavation process and the construction of the diaphragm wall. Afterwards, we'll head straight onto the site, where the new physics building is taking shape.

Helmets and safety vests will be provided – just make sure to wear sturdy shoes.

Where: HPQ

When: Thursday, 22.5.2025

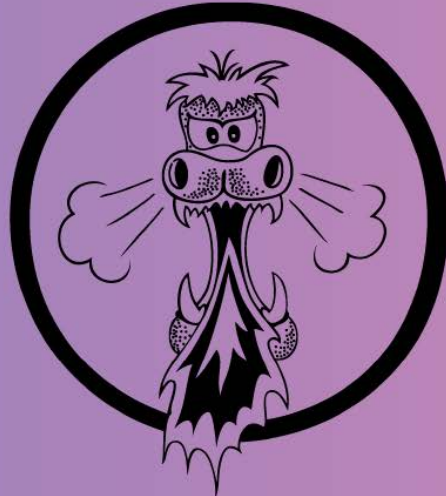

Meeting point ca. 17:00, the meeting point for the introduction will be announced later.

Cost: free
