

AIV-Newsletter April 2026

The following information can be found in this newsletter:

Bouldering	2
Tichu-Tournament x GESO	3
Rooftop Bar Masterreise	4
KTH 2026	5
RL-Apéro	6
Lochness Upcoming Events	7
Construction Site Excursion Kaiserstuhltunnel OW; Highway expansion A8 with Amberg Engineering	8
Outlook for April - AIV	9
Our Partners and Sponsors in FS 2026	10

As always, it's first-come, first-served! So be sure to register right away! ;)

In April, there are exciting events coming up for you. Which ones will you be joining?

Bouldering

The AIV is going bouldering at Minimum in Altstetten! We're kicking things off with a 1-hour crash course for those who are new to bouldering or want to brush up on the basics. Or you can start climbing independently right away.

So grab your sports gear and join us – we're looking forward to seeing you there!

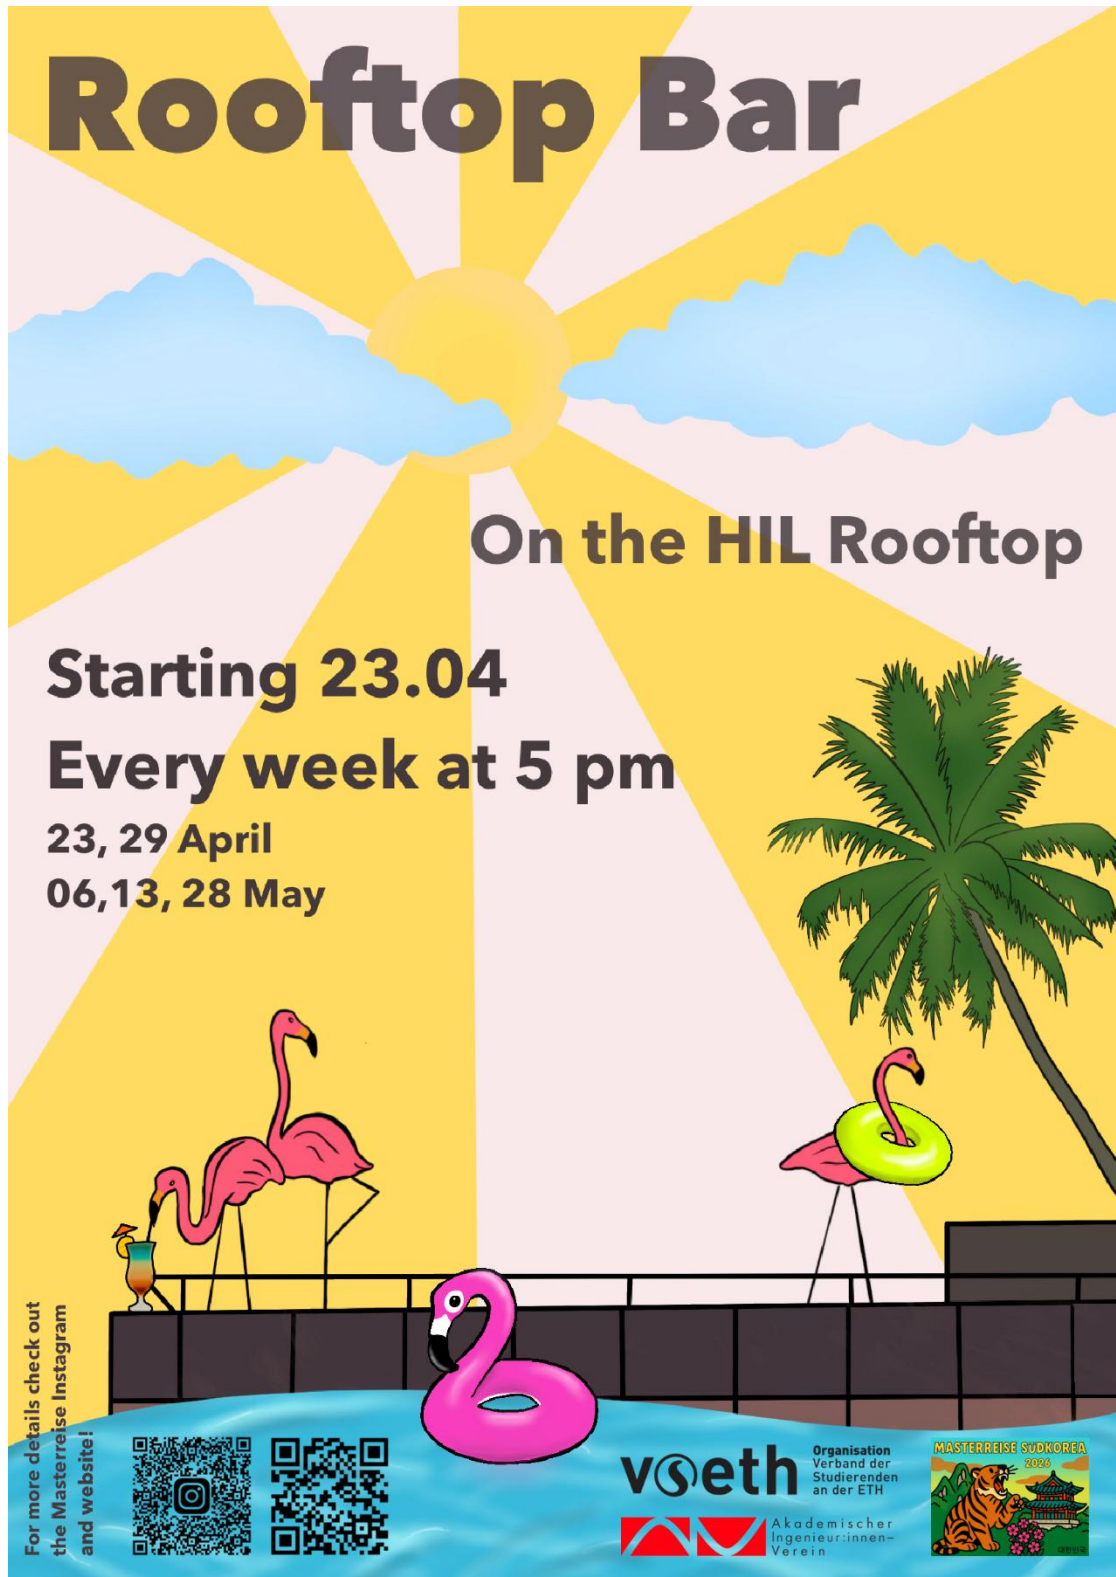

- Location:** Minimum, Zurich Oerlikon
- Date:** Wednesday, 22.04.2026, 18:00 - approx. 21:00
- Cost:** 5.- (incl. shoe rental)
- Registration:** [AIV](#) | [Instagram](#) | [Linktree](#)

Tichu-Tournament x GESO

Are you and your friend true Tichu pros? Then prove your skills in the ultimate tournament organized by AIV and GESO, fight your way to the top, and show everyone that you are the Tichu champions!

Location: HXE D21
Date: Tuesday, 28.04.2026, 18:00 - ca. 21:00
Cost: 5.-
Registration: [AIV](#) | [Instagram](#) | [Linktree](#)

Rooftop Bar

On the HIL Rooftop

Starting **23.04**
Every week at **5 pm**
23, 29 April
06, 13, 28 May

Construction Site Excursion Kaiserstuhltunnel OW; Highway expansion A8 with Amberg Engineering

The centerpiece is the 2.1 km long Kaiserstuhltunnel with a safety adit. In a semicircular alignment, it overcomes a height difference of 135 meters in a manner similar to a spiral tunnel. The radius optimized for economic reasons allows for a design speed of 80 km/h at a longitudinal gradient of 6.5%. The roadway width inside the tunnel is 7.75 meters. No emergency lane is provided. At intervals of 220 meters, escape passages lead into the safety adit. The safety adit runs along the western side of the road tunnel and has an egg-shaped cross-section with a width of 3.50 meters and a height of 4.40 meters. During operation, the ventilation system ensures that the safety adit is maintained at positive pressure relative to the road tunnel, so that in the event of a fire, no smoke gases can enter the escape and safety passages.

Where:	Kaiserstuhl OW train station
When:	Tuesday, 31. March 2026, 10:45 - 18:00
Registration:	Excursion Kaiserstuhltunnel OW 31.03.26 , (Closes: 30. March 2026)
Meeting point:	10:45, Zürich HB, Walkaround 13:00 - 16:00
Kosts:	free
Take along:	Good shoes for a construction site

Outlook for April - AIV

Registration opens on
April 27 at 4 PM

Gokart, Thursday, May 6

Beerrelay with GESO, Thursday, May 21

Endsemesterfest, Tuesday, May 28
